SUBJECT INDEX

A

Accidents
- hospitalization rates, effect of time in new job on, U.S. Navy, 653
- offshore workers, oil and gas extraction industries, 119
- structural analysis, orderlies, geriatric hospital, 437

Agricultural workers
- chlordimeform application, potential acute health effects, 592
- omite-CR-induced dermatitis, orange pickers, 409

Air
- quality
  - tight building syndrome, investigation and work-up, 142
  - tobacco smoke and, office workers, 57
- stagnation, tuberculosis transmission and, factory worker, 29

Alcohol, rehabilitation predictors, military population, 63

American Occupational Medical Association
- 72nd annual meeting, abstracts, 364
- 1987 conference, program information, 154

Angina pectoris, morbidity and mortality, 1,2 propylene glycol dinitrate exposure, 445

Arsenic
- effects on mortality, copper smelter workers, 831
- inorganic, neuropsychological impairment, chemical engineer, 500

Asbestos
- air flow limitation and (Letters), 264
- attribution of risk, new assessment method for, 253
- exposure estimation, comparison of methods, 361
- pleural plaques, risk factor for malignancy, 641
- occupational, prevalence in spray painters, 340
- styrene exposure, case reports, 957

B

Back injury, prevention (OM Forum), 721

Back pain
- low, detection of simulation, 229
- nursing-related, importance of non-patient transfer activities, 967, 971
- occupational, importance and economic burden, Quebec, 670

Bacteria, growth in portable eyewash solutions (OM Forum), 854

Black lung, federal benefits claimant, evaluation variability, 937

Bronchitis, industrial, thermal degradation products and, 752

Burns, occupation-related, five-year experience, urban burn center, 730

C

Cancer
- central nervous system, radiation exposure and, nuclear facility workers, 601
- clusters in the workplace, investigative approach, 949
- colorectal, screening (Letter), 985
- death certificate diagnosis, effect of case selection, 52
- incidence and mortality, Du Pont company, update, 245
- lung, risk among iron ore workers, France, 762
- nasal, furniture and woodworking industry, 734

Carcinoma, hepatocellular, case-control study of occupation and chemical exposure, 665

Carpal tunnel syndrome, incidence, female supermarket checkers, 953

Central nervous system, meningiomas of, occupational risks, Sweden, 66

Chemical exposure
- hepatocellular carcinoma and, case-control study, 665
- tight building syndrome, distinquishing between real or imagined exposure, 148

Chemical workers
- chlorinated dioxin exposure, cohort mortality study, 422
- cohort mortality study, 839
- inorganic arsenic exposure, neuropsychological impairment, 500

Chemists, mortality, historical cohort study, 613

Chlordane, cancer mortality among workers exposed to (Letters), 908

Chlordimeform, agricultural workers exposed to, potential acute health effects, 592

Clerical workers
- data entry, health problems, 942
- mental health and work stress, compared with executives, 892
- video display terminal use, reported health symptoms, 112

Cold injury, surveillance, using compensation claims, 504

Communications workers, healthy worker effect, 335

Construction workers
- peritoneal mesothelioma in, Sweden, 979
- safety practices, 863

Contact lens, guidelines for use, industry, 237

Coronary artery disease, mortality, fire fighters, 132

Counseling, work performance and, employee assistance program , 32

D

Death certificate, accuracy, effect of case selection, 52

Decontamination, hazardous materials, emergency procedures (OM Forum), 724

Dependent care, employer support for, New York survey, 520

Dermatitis
- allergic contact, laminated plastics and, 754
- omite-CR-induced, orange pickers, 409
- perchloroethylene and, 243

Diabetes
insulin-dependent, in the workplace (OM Forum), 786
noise exposure and hearing loss related to, metal shop workers, 576
1,2-Dibromo-3-chloropropane, workers exposed to, 9-year follow-up (Letters), 488
Diesel fuel, occupational hazards (OM Forum), 858
Diesel fumes, chemical components (OM Forum), 13
Dimethylacetamide, exposure, environmental and biological monitoring, 898
Dioxin, chlorinated, mortality study, chemical workers, 422
Disability
determination, recommendations for (OM Forum), 268
light duty work for injured workers (OM Forum), 859
Drug
resting ethics (Letter), 842
screening
ethical guidelines (Letter), 300
guidelines (Letter), 490
standards and guidelines (OM Forum), 692
testing, ethical questions (Letter), 97
Dry cleaner workers, perchloroethylene exposure, retrospective cohort mortality study, 535
Du Pont company, cancer incidence and mortality, update, 245

E

Editorials, 616, 628, 769
Electromagnetic field, exposure, leukemia incidence, 47
Electronics industry, fume fever outbreak, electronics instrument testing laboratory, 746
Electrosurgery, microwave exposure, potential ocular damage, 580
Employee
assistance program, evaluation, 32
relocation, tight building syndrome, investigation and work-up, 142
Epidemic, occupational illness, anthropologic aspects, 526
Ethylene diamine, respiratory sensitization, smoking and, 311
Ethylene dibromide, occupational hazard to reproduction, new method of semen analysis, 963
Executives, mental health and work stress, compared with clerical workers, 892
Exercise
after meals, safety (OM Forum), 267
corporate fitness program, employee turnover related to, 572
Eye
guidelines for contact lens use, industry, 237
injury, microwave exposure, during electrosurgery, 580
keratoconjunctivitis in plasma flame-spraying workers (Letter), 639
visual fatigue, video display terminals and, 321

F

Factory workers
sex-associated health symptoms, 417
tuberculosis transmission, air stagnation and, 29
Farmers, respiratory symptoms, compared with nonfarming community control subjects, 32
Fetus, effect of noise on (OM Forum), 791
Fire fighters
mortality, coronary artery disease, 132
performance differences, males and females, 801
Fitness, corporate program, employee turnover and exercise adherence, 572
Formaldehyde, cytologic examination of nasal mucosa of workers exposed to, 681
Fume fever, outbreak, electronics instrument testing laboratory, 746
Furniture industry, nasal cancer incidence, review article, 734

G

Gas extraction industry, offshore workers, job stress, mental health, and accidents, 119
Glucose-6-phosphate dehydrogenase, deficiency (Letters), 88
Grip strength, objective evaluation, 569

H

Hazardous materials, emergency procedures, decontamination equipment, contamination prevention (OM Forum), 724
Health, workplace promotion, integrative activities, 353
Health and fitness programs, occupational setting (OM Forum), 854
Health care workers, allergic events, after psyllium laxative exposure, 497
Health program, maritime industry, seafarers health improvement program, 531
Healthy worker effect, communications workers, 335
Hearing
conservation program, guidelines, 981
loss
noise exposure and, diabetic workers, 576
noise-induced, smoking as risk factor in, 741
Heart
cardiovascular risk, reduction, yield from work site, 931
disease, atherosclerotic, physical activity frequency and, male police officers, 596
Heat stress, garments for (Letter), 294, 637
Hepatitis B, prevalence of markers, occupational health nurses, 685
Hepatotoxicity, screening strategy (Letters), 986
Hospital, immunizations among employees, 433
Hospitalization rates, accidental injury, effect of time in new job, U.S. Navy, 653
Hospital workers, occupational accidents, structural analysis, orderlies, geriatric hospital, 437
Hypothermia, surveillance, using compensation claims, 504

I

Ibarra, Antonio Granda, interview with, 234
Illness rates, psychosocial variables, prospective impact, professional employees, 645
Immunization, hospital personnel, 433
Industry, in-house medical clinic, characteristics of frequent visitors to, 660
Inhalation, thermal degradation products, cause of industrial bronchitis, 752
Injury
accidental, effect of time in new job on hospitalization rates for, U.S. Navy, 653
back, determinants of incidence, nurses, 820
fatal, logging industry, Washington State, 1977 to 1983, 103
individual experience, offshore workers, oil industry, 126
light duty work for disabled workers (OM Forum), 859
rates, psychosocial variables, prospective impact, professional employees, 645
International Labor Organization, impact on occupational health and safety laws, 345
Isocyanate, occupational asthma and, spray painters, 340

K

Keratoconjunctivitis, in plasma flame-spraying workers (Letter), 639

L

Laser printer, health effects (OM Forum), 692
Lauer, D. John, in memory of (Letter), 908
Laxative, psyllium, allergic events, health care workers, 497
Lead
absorption, resulting from lead naphthenate exposure, 750
toxicity, reproduction and (OM Forum), 397
Letters to the Editor, 88, 264, 294, 488, 562, 637, 726, 842, 908, 985
Leukemia
chronic lymphocytic
determination of occupational exposure, 136
research chemist (OM Forum), 268
electromagnetic field exposure, epidemiologic survey, 44
Liver, screening methods evaluated (OM Forum), 266

Lung
bathtub refinishers disease (OM Forum), 399
function measurement, workers in swine confinement buildings, 904
occupational immunologic disease, diagnosis criteria, 806
pulmonary aluminosis, pyropowder production, 869

M

Malignancy, asbestos-associated, pleural plaques and, 641
Maritime industry, seafarers health improvement program, 531
McCollough aftereffects, after video display terminal use, incidence and characteristics, 727
Meat industry, noncancer mortality, white males, 330
Medical clinic, industrial, characteristics of frequent visitors to, 660
Medical practice, licensure for, United States (OM Forum), 13
Meningioma, central nervous system, occupational risk, Sweden, 66
Mental health
offshore workers, oil and gas extraction industries, 119
work stress and, executives and clerical workers compared, 892
Mental health care, utilization and costs, corporate setting, 812
Mesothelioma, peritoneal, construction industry, Sweden, 979
Metal shop workers, noise exposure and hearing loss, diabetes and, 576
Methylene chloride, mortality study, dose-response characterization and animal model comparison, 217
Microwave, potential ocular damage from, during electrosurgery, 580
Military personnel
accidental injury, hospitalization rates, new workers, U.S. Navy, 653
alcohol rehabilitation, predictors of success, 63
soft tissue sarcoma, Vietnam veterans (Letters), 726
U.S. veterans, mortality and morbidity selection effects, 975
Mine workers
black lung benefits claimant, evaluation variability, 937
iron ore workers, lung cancer risk, France, 762
silicosis in, South African gold mines, 44
Monitoring
biological, dimethlyacetamide exposure, 898
environmental, dimethylacetamide exposure, 898
Morbidity, selection effects, U.S. veterans, 975
Mortality
chlorinated dioxin exposure, chemical workers, 422
cohort pattern, industrial statistics data and, 430
coronary artery disease, fire fighters, 132
logging industry injuries, Washington State, 1977 to 1983, 103
male-female differential, related to increased participation of women in work force, 21
noncancer, meat industry, white males, 330
oil refinery workers, 610
5-year follow-up, 357
peptic ulcer and, historic changes, Germany, 756
probability estimates, 347 occupations, 510
research chemists, historical cohort study, 613
retrospective cohort studies, sources of bias in, 256
rubber industry, styrene-butadiene polymer production, 675
selection effects, U.S. veterans, 975
Mucosa, nasal, cytologic examination, formaldehyde-exposed workers, 681
Myocardial infarction, morbidity and mortality, 1,2 propylene glycol dinitrate exposure, 445

N

Neuropathy, transient peroneal (Letter), 564
Noise
effect on fetus (OM Forum), 791
hearing conservation program, guidelines, 981
Nurses
back injury, determinants of incidence, 820
back pain, importance of non-patient transfer activities, 967, 971
occupational health, prevalence of hepatitis B markers, 685

O

Occupational disease, physician-based surveillance, methodology development, 688
Occupational exposure, chronic lymphocytic leukemia, determination methods compared, 136
Occupational health
clinical training and, 414
impact of International Labor Organization, 345
Occupational health program, academic, lessons learned from (Editorial), 769
Occupational medicine
C.O. Sappington memorial lecture, 605
genetic and occupational risk factors, simultaneous assessment, 884
residency graduates, practice mode (Editorial), 616
scholarship fund, 151
strategic dimensions, 325
Occupational Medicine Forum, 13, 266, 397, 692, 721, 782, 854, 937
Occupational physician, hazard communication and (Editorial), 262
Office workers, air quality, tobacco smoke and, 57
Oil industry
offshore workers
individual injury experience, 126
job stress, mental health, and accidents, 119
refinery workers
mortality, 610
mortality study, 5-year follow-up, 357
Orange pickers, omite-CR-induced dermatitis among, 409

P

Pain, low back, detection of simulation, 229
Pain therapy, patient response, work injury *v* non-work-related injury, 315
Painters, isocyanate exposure, occupational asthma and, 340
Palsy, bilateral peroneal, painter's model, 109
Patient, response to pain therapy, work injury *v* non-work-related injury, 315
People and Events, 69, 197, 270, 386, 461, 542, 618, 694, 771, 844, 913
Perchloroethylene
occupational dermatitis associated with, 243
retrospective cohort mortality study, dry cleaners, 535
Peroneal nerve, pressure neuropathy, painter's model, 109
Phthalic anhydride, occupational immunologic lung disease and, diagnosis criteria, 806
Pituitary, secretion, after styrene exposure, impaired dopaminergic modulation, 826
Plasma, flame-spraying workers, severe keratoconjunctivitis in (Letter), 639
Plastic, laminated, allergic contact dermatitis from, 754
Pleural plaques, asbestos-associated malignancy and, 641
Police officers, atherosclerotic heart disease risk factors, physical activity frequency related to, 596
Polymer-fume fever, associated with smoking during use of mold-release spray, 817
Polytetrafluoroethylene, smoking and, polymer-fume fever associated with, 817
Polyvinyl chloride, cutting, sanding, and heat welding hazards (OM Forum), 693
Pregnancy, respirator use during, guidelines (OM Forum), 782
Pressure neuropathy, peroneal nerve, painter's model, 109
Professional employees, psychosocial variables, impact on illness and injury rates, 645
Prolactin, response to thyrotropin releasing hormone, after styrene exposure, 826
1,2 Propylene glycl dinitrate, occupational exposure, cardiac morbidity and mortality, 445
Psyllium, laxatives, allergic events among health care workers exposed to, 497

Pyropowder, production, pulmonary aluminosis caused by, 869

Q

Questionnaire, work history, validity, live respondents, 795

R

Radial nerve, bilateral palsy, secondary to unilateral blunt shoulder trauma, 961
Radiation, central nervous system cancers and, nuclear facility workers, 601
Rehabilitation, alcohol, predictors of success, military personnel, 63
Reply to Editorial, 632
Reproduction
  occupational hazards, new field methods of semen analysis, 963
  occupational influences, literature review, 584
  toxic exposure and, dose-response fallacy, 451
Respirator, during pregnancy, guidelines (OM Forum), 782
Respiratory function, workers in swine confinement buildings, 904
Rubber industry, styrene-butadiene polymer production, worker mortality, 675

S

Sarcoma, soft tissue, Vietnam veterans and (Letters), 726
Scleroderma, after trichloroethylene exposure, electronics plant worker, 493
Sclerosis, progressive systemic, after trichloroethylene exposure, 493
Screening, drug, ethical guidelines (Letter), 300
Selected Reviews from the Literature, 5, 82, 211, 283, 473, 555, 635, 924
Semen, new field methods of analysis, occupational hazards to reproduction, 963
Sex
  determinant of health symptoms, factory workers, 417
  mortality differential, women in the work force and, 21
  performance differences, simulated firefighting tasks, 801
Shoulder, unilateral blunt trauma, bilateral radial nerve palsy secondary to, 961
Silicosis, gold miners, prevalence studies, 44
Skin disorders: *see* Dermatitis
Smoking
  attribution of risk, new assessment method for, 253
  during and after use of mold-release spray, polymer-fume fever associated with, 817
  effects on mortality, copper smelter workers, 831
  ethylene diamine sensitization and, industrial population, 311
  indoor air quality and, office workers, 57
  risk factor in noise-induced hearing loss, 741
Smoking areas, office workers (Letter), 564
Solvent, single and mixed, body burden profiles, 877
Spirometry, comment on (Letter), 842
Steroid, epidural injection, response affected by work status, 315
Styrene
  occupational asthma due to, case reports, 957
  pituitary secretion in workers exposed to, impaired dopaminergic modulation, 826
Sulfur dioxide, effects on mortality, copper smelter workers, 831
Supermarket workers, carpal tunnel syndrome, prevalence, female checkers, 953
Surveillance, occupational disease, physician-based, methodology, 688
Swine confinement buildings, respiratory function of workers, 904

T

Tetrachlorophthalic anhydride, occupational immunologic lung disease and, diagnosis criteria, 806
Thyroid gland, function, lead exposure and (Letter), 985
Tight building syndrome
  new or remodeled buildings, investigation and work-up, 142
  real or imagined exposure, distinquishing epidemiologic features, 148
Tobacco
  environmental smoke, indoor air quality and (Editorial), 628
  smoke, air quality and (Letter), 637
Trauma, unilateral blunt shoulder, bilateral radial nerve palsy secondary to, 961
Trichloroethylene, progressive systemic sclerosis and, electronics plant worker, 493
Tuberculosis, aggressive transmission, factory worker, 29
Tumor, growth curve (Letters), 562

U

Ulcer, peptic, occupational work load and mortality, historic changes, Germany, 756

V

Vaccination, among hospital personnel, 433
Vanadium pentoxide, health surveillance (OM Forum), 14
Video display terminal
  health problems of data entry clerks, 942
  McCollough aftereffects, incidence and characteristics, 727
  reported health symptoms and, clerical workers, 112
  visual fatigue and, 321
Vietnam veterans, soft tissue sarcoma and (Letters), 726

W

Wellness, work-site programs, preliminary review, 317
Women, participation in work force, sex mortality differential and, 21
Wood products industry, fatal logging injuries, Washington State, 1977 to 1983, 103
Woodworking, nasal cancer incidence, review article, 734
Work
  history, questionnaire-reported, validity, live respondents, 795
  load, peptic ulcer and, historic changes, Germany, 756
  performance, evaluation, after employee assistance program counseling, 32
  stress, mental health and, executives and clerical workers compared, 892
